ABOUT ME

I am self-taught front-end web developer with expertise in the React ecosystem, I am highly motivated and dedicated to continuously improving my skills and delivering high-quality, user-friendly web applications.

EXPERIENCE

Self-employed / private practice / freelance — May 2022 – Present

Development frontend part of web applications on NextJs/ReactJs

- Choosing the right architecture for further scaling.
- Creation and SEO optimisation of static and dynamic pages, implementation of UI based on provided layouts.
- Develop business logic that works with external APIs.

PROJECTS

Chat-app | *TypeScript, React, Redux/rtk, SocketIo, Material-UI, FSD* — May 2023 – June 2023

- Developed a frontend-part of web application.
- Created Message context menu, to manage the message (edit, delete, copy).
- Implemented chat-Middleware to produce socket actions: create chat, send/edit/delete/react to message.
- Used RTK Query for caching/fetching data, with custom BaseQuery.

Katerina-dietolog | *TypeScript, NextJs, React-query, Draft-js* — Feb 2023 – May 2023

- Custom admin dashboard to work with all services, and change content.
- Added support for three languages.
- Optimized interface - the application works correctly on all devices.

Crypto-bot-landing | *NextJs, framer-motion* — Oct 2023 – Oct 2023

- Competition work, won 4th place.
- The landing page has been developed with the possibility of integrating external APIs in the future.

Courses-app | *TypeScript, React, MobX* — Sep 2023 – Sep 2023

- Admin panel that allows you to create content for students, and track their stats.
- User profile where student can track his progress / stats of completing courses / tests(simple quizes)

Caprise shop | *NextJs, nodemailer, react-intl* — Jan 2024 – Jan 2024

- Newsletter subscription/unsubscription functionality implemented.
- Internalised in 2 languages, fancy design.
